

Mastering The Sword of Attention

Radical Leadership for Radical Times

QE

“The Primary Task of a Leader is the Mastery of His or Her Energy.”

- Peter Drucker

These are radical times – radical, as in times of extreme change.
Radical times require radical leadership – radical, as in fundamental
leadership arising from the root, origin or source.

The origin or source of all things is *spirit*,
the energy of creation, the spark of life, the light of awareness.

>> *Energy Follows Attention.* <<

Radical leaders liberate the energy of the human spirit!
Liberation of the spirit requires deep mastery
with

The Sword Of Attention.

Radical leaders seek the root cause.
They transform the world by transforming themselves.
